ANNUAL IMPACT REPORT

Encouraging Prevention with Education and Resources

Dear Friends of EmPoWER,

I am excited to share with you all of the amazing work that EmPoWER Somerset has accomplished in 2022. We are constantly striving to strengthen our commitment to prevention, recovery, and stigma-free communities through education, collaboration, and connections to resources. Our team has been inspired by the incredible youth, veterans, families, and communities we serve and remain grateful for the opportunities we have had to fulfill our mission. We know that recent events in our country and across the world have had a significant impact on young people, which is why we have dedicated more staff and resources to preventing youth suicides and mental health crises, particularly in under-resourced communities.

EmPoWER Somerset became the statewide coordinator for the Lifelines Trilogy. As a comprehensive suicide response and prevention program, Lifelines supports school districts in becoming competent communities, communities in which everyone cares about each other's welfare and knows how and where to seek help when a community member is in need. This empowerment model expands the role of suicide prevention from the counseling office into the entire community, including parents and caregivers. We also continue to deliver Mental Health First Aid trainings to the larger community so that caregivers, family members, friends, and any caring individual can identify, understand and respond to signs of mental health and substance use challenges and connect a person to help.

Our Overdose Fatality Review Team has been instrumental in bringing awareness to the devastating impacts of opioid overdoses and other overdose deaths. We have begun distributing Narcan in the community to individuals, businesses, places of worship, and other community settings, making it more accessible to those who need it. Our efforts to increase the accessibility and prevalence of Narcan and other recovery resources in the community, combined with our awareness initiatives around the devastating effects of overdose deaths, will help us make a significant impact in preventing future tragedies.

I am so thankful for the entire EmPoWER team and the positive impact they have had on the community in 2022. There is much more work to be done, and we remain committed to creating inclusive, equitable, stigma free communities for all. I want to thank our volunteers, funders, and partners for the support, expertise, and guidance throughout the year and I can't wait to see what we accomplish together in the future!

With gratitude,
